About This Content

Spoilers!

To the Moon, too! is a short comic following the Platypus (Platplat) & Paper Rabbit as they attempt to reunite with Johnny & River after they parted at the end of *To the Moon*.

This is a package with the HD version of the complete comic (in both .PDF & individual JPG files format) for a small fee to support the production of the comic, which is publicly available for viewing in web-size format @ Freebird Games' website. It also contains some perks:

Additional bonuses:

- \$2 Paypal rebate for *To the Moon* music boxes & comic print purchases at: <http://freebirdgames.bigcartel.com/> (See rebate.txt in DLC folder for instructions.)
- Wallpapers featuring Platplat, paper rabbit, Johnny, & River from the full sized comic.
- HD audio file for Piano medley of *To the Moon* and *A Bird Story* themes.

(This DLC will be downloaded to To the Moon's Steam folder. To navigate there, right click To the Moon from Steam library
-> Property -> Local Files -> Open Local Folder.)

Pretty simple game, like Bomberman should be. If you have some time and wanna play for a short time with your friends, its a seriously funny game. you can additional to placing bombs and get the standard Items do little jumps/speedruns and kick bombs. I personally think Bomb it, at least the first, is better, but for a free to play bomberman it is very enjoyable. Takes a little too long to stretch its wings with some alternate rules, but the puzzles are logical, stylish, and fun. Would recommend, and would encourage the devs to add some DLC puzzles that take additional advantage of the later rules. :). This game has scared the crap out of me many times! Even with only headphones (no VR, no heart beat device) I jump in my seat, get chills, the hair on my arms stand up and occasionally I shriek like the frightened player I am!. Very beautiful. The Far East gains far more flavour with this pack. Keep the talent coming.. Utterly spellbinding and totally original. I cannot say enough good things about it.

I really like this game. This is a nice RPG and an amazing addition to the series. Would recommend.. Well I'm a fan of minimalism and my last name starts with VOI, which happen to be the 3 simplest shapes, so I may be subjective when I say that it's not at all a bad game.. A convoluted spread sheet. This is not really a game at all. I have literally no idea how anyone can play this and stay awake. I have 13 hours but only because I fell asleep "playing" it after 6.. Nostalgia ended up while I was playing this game.. Lots of nice looking buildings but most of the doors don't line up with a square.. Space Grunts is like nothing out there in the world today. Sure it borrows concepts from numerous popular franchises and yes it's another roguelike but in actuality, it isn't. Where other roguelike games on the market today delight in throwing insurmountable challenges at you in quick succession, inviting your demise to an ever closer outpost on your lifespan, Space Grunts challenges your mind by building unpredictable challenges as walls in your way. These walls can only be traversed through the application of logic and forward thinking.

I've got a full written review up on my site (link below) but I'll just say this: As the cold winter moves in, Space Grunts is a warm hearth at which to seat your backside while engaging your grey matter in a near-endlessly enjoyable adventure.

<http://jameslackgames.com/2016/01/12/space-grunts-review/>. Good family fun game! Honestly, it needs DLC.. Very good for the price. Awesome art, good music and a touching storyline.
